SHAIK ZOYA MEHEK

AI/ML Engineer | Data Analyst

Bengaluru, India | +91 9553502101 | zoyamehek564@gmail.com
github.com/Zoya05 | linkedin.com/in/shaik-zoya-mehek

PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence with hands-on experience in Machine Learning, Deep Learning, and NLP through internships and projects. Skilled in Python, TensorFlow, Scikit-learn, CNN, and Vision Transformers, with experience in model development, data preprocessing, SQL, Power BI, Tableau and evaluation. Currently pursuing AI Engineering training at DataMites, Bengaluru, and seeking an entry-level AI/ML Engineer role or Data Analyst role.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, C, R
- **Machine Learning:** Scikit-learn, Supervised Learning, Classification, Regression, Model Evaluation
- **Deep Learning:** TensorFlow, CNN, Vision Transformer (ViT), Swin Transformer
- **Natural Language Processing:** TF-IDF, Sentiment Analysis, Text Classification
- **Data Processing:** Pandas, NumPy, Data Preprocessing, Exploratory Data Analysis
- **Data Analytics & BI:** SQL, Excel, Power BI, Tableau, MongoDB, Big Data concepts
- **Tools & Technologies:** Git, GitHub, Jupyter Notebook, VS Code, MATLAB, MySQL Workbench

PROFESSIONAL EXPERIENCE

AI Intern | *SkillDzire* Nov 2025 – Apr 2026

• Trained and evaluated deep learning models, improving validation accuracy by 10–15% through hyperparameter tuning

• Developed an end-to-end AI solution involving data preprocessing, model training, and evaluation, reducing manual processing time by 25%

Data Quality Analyst | *Rooman Technologies* May 2025 – Jul 2025

- Removed 15% duplicate and inconsistent records from a ~5,000-row dataset
- Built Excel and SQL validation workflows, cutting manual review time by 20%

AI/ML Intern | *ExcelR* Apr 2024 – Jul 2024

- Preprocessed and analyzed 5+ real-world datasets (10,000+ records) using Python and Scikit-learn.
- Built a classification model with 85% accuracy and presented findings in 5+ visualizations

TRAINING

AI Engineering Program | *DataMites, Bengaluru* Aug 2026 – Present

- Currently undertaking hands-on training in Python, Machine Learning, Deep Learning, SQL, MongoDB, Big Data, Tableau, Power BI, and Git

PROJECTS

Plant Disease Detection |Python, TensorFlow, CNN, Swin Transformer, ViT|

- Built a CNN, Swin Transformer, and ViT pipeline to classify 10+ plant diseases from 3,000+ leaf images, reaching 90–93% test accuracy

Sentiment Analysis on Product Reviews |Python, Scikit-learn, TF-IDF, Logistic Regression|

- Built an NLP pipeline to classify customer sentiment on 2,000+ product reviews with 87% accuracy

Traffic Volume Estimation System |Python, Scikit-learn, Regression|

- Developed a regression-based model to predict traffic volume from 1,000+ records, achieving 85% prediction accuracy

EDUCATION

B.Tech, Artificial Intelligence | *Ravindra College of Engineering for Women, JNTUA* 2022 – 2026

CGPA: 7.5/10

CERTIFICATIONS

Google Data Analytics | IBM Artificial Intelligence | Forage Software Engineering Job Simulation | Infosys Springboard Generative AI | MATLAB Onramp | IBM Large Language Models

LANGUAGES

English, Hindi, Telugu, Urdu
